## Gratitude and Hope

I have always wanted to serve in a school like Assumption Pathway School. In my short time here, I am immensely grateful for our teachers who give of themselves to provide many opportunities for our students to succeed in life. Through the pandemic last year, they worked hard to establish positive relationships with the students. I am also grateful that despite COVID-19, our students are coming to school each day, putting in effort to achieve personal success.

There is great hope for our students to achieve success through adaptability, resilience and hard work. We see this in the graduating cohort of 2020. Together with their teachers and parents, they have learnt new ways of learning and are now better equipped to navigate an increasingly digital world. In 2021, all Year 1 to 3 students will be equipped with a laptop for learning, our teachers are also adapting to this new normal with their efforts to use new pedagogies to engage our students.

I am especially grateful that most parts of APS life is resuming safely with the necessary safe-distancing measures. We see this through the variety of activities featured in this issue of Pathways. I am humbled to see how our students have stepped up to the challenges and embraced the new norm with a sense of responsibility to do what is right and care for their fellow classmates and teachers. Serving at APS has filled me with grateful hope and I pray the years ahead will continue to be filled with gratitude and hope.

**"If you don't take risks for God, you won't give anything worthwhile."**  
- St. Louis Marie de Montfort, Letter 27

## Year 3 iSTAY

At first I felt it was boring, because it has been 1 year since we had iSTAY due to the pandemic. However, after the first day of iSTAY, it started getting more fun and enjoyable. What I enjoyed about iSTAY is when we played a lot of fun games, like the mini Olympic when we made our own Ping Pong Game which was really fun and we had a great time. I also enjoyed myself during the career and guidance workshop where we were in groups and we had to solve a lot of puzzles. The most enjoyable moment was the trip to Gardens By The Bay! I learnt the values of care and resilience. The class and I didn't give up on each other and encouraged one another to come to school for iSTAY. I also cared for my friends when they were in need of help and when they were struggling to finish a task.

## Year 4 iSTAY

This year, iSTAY was different due to Covid-19. We were not allowed to stay overnight and had to follow safe distancing measures when we were doing our group work and other activities. I did miss staying overnight as I had so much fun with my classmates previously. This time, it was quite tiring as iSTAY was after school hours. And by the time I reached home, it was already quite late. However, I still enjoyed the activities especially the Marina Bay outing. The best thing happened during this iSTAY was when I managed to clear a misunderstanding I had with a good friend.

## Year One Orientation

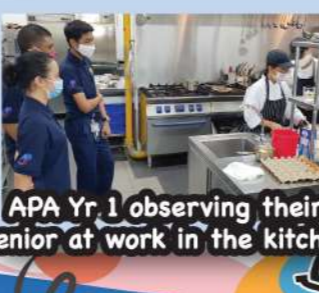

After the first day of orientation activities, I knew the school much better. I got to know most of my new classmates. I enjoyed the catapult building activity. It was difficult to fire the catapult straight but we did it in the end. In P6, I did not talk much as I am always shy and quiet but APS orientation has helped to bring me out of my comfort zone.

## Year One APA Orientation

## Student Leaders' Investiture

I felt honoured when I was introduced to the school as I feel that as a President I am really representing all the students in school. Now that I am the President, I feel excited because I get to work with everyone and guide the student council to continue contributing positively to the school environment. I believe even the simple things are important and must be done well. My goal this year is to get all councillors to work well together so that we do our best for the school. I take great pride in working with others and inspiring others to do their best.
