**Emcees**

MANY PATHS. ONE PURPOSE.

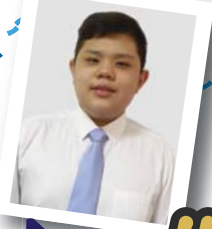

### VALEDICTORIAN TAY ENG SOON AWARD

"To all my juniors, I would like to say that a failure is a start to success. We can choose to be successful and we can also choose not to be successful. Always remember, make full use of every door of opportunity that opens up for you. Never say no to new things. Take up the challenge and prove to others that you can do it. No one is born a failure. If I can be, who I am today, why can't you?"

AMIRAN BIN ISMAIDEY

### LEE HSEIN LOONG AWARD FOR SPECIAL ACHIEVEMENT

"I told myself not to give up and take up the challenge as it will help others."

JAVIER TAN

### Year 1 iSTAY

As a year 1 student in iSTAY, I learned the importance of cleaning my own things, like making my own bed and learning how to wash the dishes. This made me into a more disciplined person. There were times where I struggled to do these things, especially making the bed. With the guidance from Miss Zee and the encouragement from Mr 'Ashri, I managed to make my bed within 5 minutes. I was overjoyed and I will remember Mr 'Ashri telling me, "Just do it!" Thank you to the coaches and my teachers.

MUHAMMAD FAZRUL  
BIN ABDUL HISHAM (1S1)

### Year 2 iSTAY

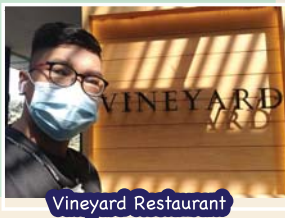

In iSTAY I learned more about my friends and teachers. One thing I learned during iSTAY was how to work as a team with my classmates and staying positive. I especially enjoyed spending time with my friends cleaning the dormitory. However, we need to be more focused in our tasks and to complete them well and on time.

ALICIA KELLY IMMANUEL (2P2)

## Industry Experiential Programme

The students were glad to be attached to these companies which had given them more exposure to an authentic working life. The invaluable experiences learnt, and wonderful memories created had made the students to be even more grateful to life. A big thank you to our partners for their continued support in believing to give the best for APS students.

Vineyard Restaurant

SUKIYA (Plaza Singapura)

ActPoint Salon

Mitsubishi Electronics

Regent Hotel

The ART

During my IEP, I was attached to Vineyard Restaurant at HortPark. I learned how to communicate with other chefs. I asked them for help when I had problems with my tasks. I felt very excited during my attachment because I got to learn more things about cooking and customer service.

SYABIL EL NINO AKIF  
BIN SUHAIMI (4CS1)

I was attached to Suki-ya Restaurant at Plaza Singapura. I learned how to interact with guests and also how to handle different guest. I had the opportunity to learn from the full-time staff and supervisor there. I feel thankful that now I know how working life is like during my attachment.

ABDUL MATEEN  
BIN ZUBIR (4HS1)

At first, I felt nervous because I had never served customers in a professional salon before. Through the IEP experience, I learnt the procedures when welcoming customers at a salon upon arrival, portraying good customer service as well as maintaining cleanliness standards at the salon.

DIANA QISTINA BINTE  
SAIFUDDIN (4HDI)

My attachment to Mitsubishi Electronics was a learning experience. I was lucky to be given an opportunity to learn about logistics operations. I got to learn how the machines and parts were packed in boxes and how boxes were recycled for other uses. It was quite exciting to learn and experience something new.

MUHAMMAD HARIQ IMAN  
BIN AHMAD (4FS2)

Days before the IEP started, I felt nervous as I had never worked outside in a restaurant before. I felt constantly stressed because I needed to do things quickly in the kitchen and follow instructions correctly. One thing I would like to advise my juniors is to have discipline and to listen to instructions and carry out tasks promptly.

LIN JIA LE (4BP1)

In the lead up to the IEP, I felt excited as I will finally get to experience working in an actual restaurant setting at The ART. At the beginning, I was struggling to flip the pan while cooking spring-onion chicken. However, I persevered and was able to catch on the skills from the chefs. I would advise my juniors to prepare in advance for the IEP by sleeping early, being punctual and to be positive in all that we do.

ADDY RYAN  
BIN ISMAIL (4CS1)
