APS GRADUATION CEREMONY 2019
Transforming Lives. Celebrating Success

MANY PATHS. ONE PURPOSE.

Principal's Message

Today, the role of Assumption Pathway School (APS) is not only to pursue academic and vocational excellence but also to motivate our students to be lifelong learners and contributing members of Singapore. At APS, we provide an atmosphere for multi-faceted development. Students are encouraged to uncover their potential in the pursuit of excellence, especially in their vocational training. The school is also striving hard to integrate character education in all areas of the curriculum.

This year, APS has also introduced interesting and engaging enrichment activities in our new Year 1 curriculum. Students are encouraged to sign up for the activities that they have an interest in. These activities range from Apps and games programming, to Music and Movement, basic Martial Arts, etc. We want our students to have a rich learning experience during their journey with us.

While preparing our students to be work-ready is our prime objective, the school is also devoted to prepare the students for life, grooming them to face the challenges of tomorrow, and encourage them to be socially relevant.

Last but definitely not least, parents and our various partners are the most important factors in moulding the future of the children. APS will always be grateful for their consistent support which empowers and encourages us to do our very best for the students.

Mr Eric Leong
Principal

Year 1 Orientation

ELIWIN NEO EN HUI, 1P2

I had a great time during Orientation Week. I enjoyed looking for different places with clues given in Sentosa. I took pictures and enjoyed the activities with my class. On another day, the Year 2 students brought our class around the school to get to know the place better. We also had a very fun NERF gun competition. I got to shoot many times. It was fun playing as a class.

ELYA ASILAH, 1S1

I really enjoyed the Orientation Programme. We went outdoors to do many activities. I made many new friends and built close relationships by doing activities together. I also got to know my school better. I like APS more after the orientation.

Year 3 Industry Experiential Programme 2018

MUHAMMAD DANIAL, 4FS1

On the first day of IEP, I was attached to ST Synthesis where I learned a lot of things which included how to wash army boots and pack them according to their sizes. I was also tasked to pack oxygen masks and to pack them accordingly in the correct bags. I learned to work as a team with the other colleagues at the company.

LEE WAN XIN, 4BP2

During my work experience at BreadTalk for 2 weeks, I was fortunate to have experienced firsthand what goes on in a production kitchen. The staff were friendly and I got to learn sign language as one of them is mute. I ended up learning a lot more than I thought I would. I am proud that I completed my IEP.

Year 4 iSTAY

NUR AZURA, 4CS1

This year's iSTAY was great! The most exciting part was when I got a chance to interact with the Korean students. They joined us for iSTAY and we did activities together. We completed the 10,000 Steps Challenge from Marina Bay to Gardens by the Bay for the lights show. It was an awesome experience for me!

MUHAMMAD HEDRIE, 4HS1

I enjoyed my Year 4 iSTAY programme because it was our last one in APS. We did many fun activities such as the class fruit platter competition. I felt so proud that my class won the 1st prize! I will miss spending time with my friends and teachers. Most importantly, I learned how to be more responsible and caring towards others.

NUREMELLELVYVONICCA, 4DP1

During my last iSTAY, I learned more about teamwork. We had to work as a team for most of the activities. I totally enjoyed the class fruit platter competition. It was fun discussing and planning for the class fruit platter presentation. I managed to carve a shark out of a watermelon! My class emerged the champion! Yay!

BLUE Art Exhibition 2018

XANDYR QUEK, 2S1

Title: Smokey Series

The work is all about Smokey. There are monsters from outer space. Rajeto, Urambillo and Japan are enemies. I feel that the work is good. I enjoy painting and I am proud of my work. I am good at drawing. I like my work to be exhibited because everyone can see my work and be happy.

Real Works - Hair Dressing

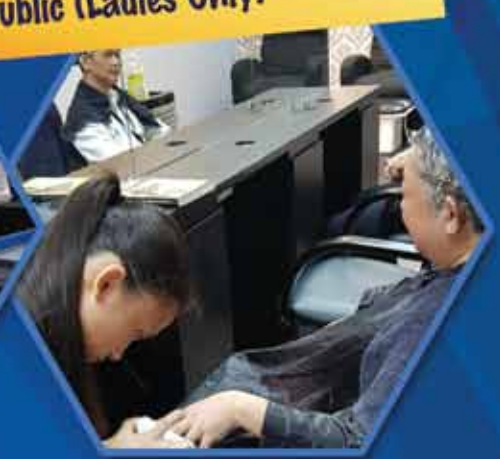

Every Monday, 12.45pm to 2.45pm
Open to public (Ladies Only)

Lakshman managing the Point of Sales counter

Putri Afifa giving a hair wash

Hui Xin giving a basic manicure

Snapshot @APS: Facilities Services

How to replace a tap washer

1. You'll need an adjustable wrench and a screwdriver.

2. Turn off the isolation valve to your taps so that water won't gush all over your bathroom.

3. Pop off the lid of the tap .

4. There's a screw inside. Unscrew it . Clockwise to tighten, Anti-clockwise to loosen

5. Expose the cartridge. Use an adjustable spanner and brute force.

6. Pull the cartridge out.

7. Unscrew or pop off the washer, pop the new one in and put your tap back together.

Top tip:

As you dismantle your tap, it's clever to keep all the separate parts in the order in which they came out, so that you can easily put them back again. Take a photo if you want to be certain.
