2017 Graduating Students' Messages:

Muhd Ismail 4HD1

I feel sad knowing that my school term in APS is ending. I have made much progress in Math as I put in more effort! iSTAY gave me a lot of good memories and I made a point to spend more meaningful time with my classmates during this year's iSTAY. I'm confident of getting into ITE with my projected GPA and feel very grateful to all APS teachers for their patience.

Will miss all teachers and my friends!

Dina Syahira 4DP1

I have always been a quiet and shy student. In Year 1, I had a hard time trying to start conversations with my classmates. As time progressed, I grew to be more confident to communicate comfortably with them. I'm still considering my options after graduating at the end of Year 4. One thing's for sure, I will definitely feel sad leaving APS because this is where all my teenage memories were formed, the good and the bad. I have become more confident and responsible. Thank you APS!

Muhd Haziq 4FS1

I remember clearly that I had no friends when I reported to APS in the first week. I was transferred from Grace Orchard School in 2016 to Year 3. I requested to be posted to this school as I heard my friend tell me positive things about APS. I feel happy in APS and learned how to cope with my studies. I learned to stay resilient and to never give up whenever I come across some hard times. I would like to say "Thank you" to all teachers in APS!

Muhd Dasuli 4HS1

I enjoyed my 4 years in APS. I feel happy and look forward to coming to school daily. This year, I consciously put in more effort and was proud to be part of a customer service filming project about how to handle difficult customers. I was the narrator. I hope I can go to ITE, but will feel sad leaving APS. I would like to thank all teachers who have taught me.

I was surprised to be selected to participate in the Halloween Baking Competition. I felt stressed and we had to stay back for a number of Fridays and a few Wednesdays to practise baking and prepare for the event. Our teachers, Mr Larry and Mdm Nurul guided us and kept track of our time. We had to keep it within three hours. The team of students decided on a pumpkin design for the Halloween theme. We trained hard for more than five weeks and are happy to come in first runner-up for the competition.

Muhd Sufyan, 3BP1

I was pleasantly surprised to be part of the participating team for the baking competition. I felt exhausted having to practise for this but realised it paid off when we clinched the first runner-up prize. The whole experience was tensed but rewarding. I'd learned to be positive, calm and be resilient. I'm happy that I was given the chance to represent APS and learned to work under tense conditions.

Muhd Farhan, 3BP1

I was happy to be part of the APS baking team. I enjoyed preparing the miniature black mice and pumpkins for the Halloween theme. We used roughly twenty eggs and one-and-half blocks of butter for the cake. Teachers were not allowed to enter the baking kitchens. We had to manage the time and try our best to complete the final product ourselves. I thought our entry was well done and it was a good experience for the team.

Haney Sofea, 3BP1
